Palestine Regional Medical Center Opens New State of the Art Wound Care Center with Hyperbaric Chambers.

Wednesday, November 9, 2011 was the open house for the expansion of the wound care center including 2 hyperbaric chambers. Hyperbaric Oxygen Therapy (HBOT) is the most progressive treatment option for chronic, non-healing wounds. The oxygen level in the patient's blood increases helping to reduce swelling, control infection, and stimulate growth of new blood vessels in order to heal chronic wounds. If you would like to schedule a time to see the new Wound Care Center please call me at 903-731-8902 and I will schedule tours.

Trip to Branson, MO.

We had a great trip to Branson October 30th-November 4th. We saw 5 really great shows and took in some shopping as well as sipping a little wine during a tour and wine tasting at Stone Hill Winery. The weather was wonderful and the fall foliage was absolutely beautiful.

Birthday's November and December

Jeff Gabbert	11/4	Jimmy Vickery	12/3
